

TexVoIP Fleet Suite

Optimize your operations.

Get the right information to the right people

TexVoIP Fleet Suite provides the vehicle, asset tracking and advanced monitoring tools you need to help your mobile fleet be more efficient, profitable and customer focused.

Increase efficiency with ease

Simplify operations with an intuitive, GPS-based platform. Designed with the user in mind, TexVoIP Fleet Suite is easy to deploy and simple to manage via an online portal on virtually any desktop, laptop or mobile device.

Strengthen operations

Move your fleet forward with confidence. Our fleet solutions combine the strength of the AT&T wireless LTE network with intuitive, web-based tools—so you can keep your fleet on the leading edge of efficiency and reliability.

TexVoIP Fleet Suite is only available to customers with a qualified TexVoIP business agreement and a Foundation Account Number (FAN). Activation of an eligible TexVoIP wireless rate plan on a compatible device is required. May not be available for purchase in all areas or through all channels. Availability, security, speed, timeliness, accuracy and uninterrupted use of service are not guaranteed. Not all features available on all devices. Compatible device required for GPS or a GPS derived location information. Additional hardware, software, services, internet access and/or special network connection may be required.

Potential benefits

- Streamline dispatch with real-time GPS routing
- Better manage fuel and maintenance costs by monitoring driver behavior
- Respond to customer needs faster and more accurately
- Monitor the location and status of valuable equipment
- Remotely manage tasks of workers in the field

Features

- Help control labor and fuel
- Maximize scheduling and dispatch
- Gain efficient fleet maintenance
- Improve customer response times
