

# TexVoIP Business Fiber

## Dedicated Internet access. End-to-end availability.

### Unmatched connectivity

Imagine having your own private internet connection—managed and secured by a leading network service provider.

TexVoIP Business Fiber delivers high speed, dedicated Internet access with the flexibility you need to stay connected to customers, business partners, and employees.

### Flexible access and options

TexVoIP Business Fiber is no typical Internet connection. It's a complete solution that provides reliability, optimal performance, scalability and security features, proactively monitored around the clock. You gain a dedicated Internet service that's capable of connectivity throughout the United States, including Puerto Rico.

### Conduct business with confidence

TexVoIP Business Fiber helps move business further and faster by offering convenience, responsiveness and options for your rapidly growing internet use. Choose the complete TexVoIP managed solution or provide your own equipment and manage certain components. With guaranteed provisioning, redundancy and a wide range of access speeds, feel comfortable knowing you made the right choice for your unique business needs.
